Amazing Serivce!!!!

I never thought a service dino could make such a difference in my daily life, but Jurassic Care proved me wrong. Tyrannosaurs-Rex, Charlie, has been my lifeline, assisting me with mobility challenges. The entire adoption and training process was seamless. Highly recommended!

I love my dinosaur!

I never imagined having a service dinosaur, but Jurassic Care Inc. made it a reality! My allosaurus, Rocky, has been a game-changer—helping me with mobility, carrying items, and even standing guard when I need extra security. The training was top-notch, and despite his size, he's surprisingly gentle. Everywhere we go, people are amazed, but to me, he's just my loyal companion. If you're thinking about getting a service dinosaur, do it! Best decision I've ever made. 5 stars!

Evolution, Uh, Takes the Lead in Assistance!

Well, well, well. You know, I've seen a lot of questionable applications of genetic engineering in my lifetime—most of them ending in absolute chaos, running, and, uh, screaming. But Jurassic Care. has, against all odds, done something quite remarkable: they've tamed the prehistoric past and turned it into a force for good. My velociraptor service companion, Bluebell, has been an invaluable assistant. She's trained to open doors, retrieve items, and—most importantly—keep me from making any more poor life choices that involve islands, billionaires, and dinosaurs. The team assured me that her instincts had been, ahem, refined through positive reinforcement, and so far, I haven't been eaten, which is always a plus.
