Login Page: Users will need to sign into their account by using their email address and password. Passwords are hashed so they are secure in your database. You cannot access any other page unless you log into your account. If you don't have an account, you can register for a new account by clicking the link at the bottom.

Customer Flow

*The following walkthrough is from the customer (actor) point of view.

Register Page: On this page, users will be able to create a new account. Users are required to enter a first name, last name, email address and password. They have the option to add a profile picture as well. Once the required fields are filled in, the user will be redirected to the Login page.

Home Page: This will be the page that users will be redirected from the Login page. There are links to other pages.

Navigation Bar: Users can use the navigation bar which is present on all pages. You can click on a specific tab and it will redirect you to a specific page.

Contact Page: It allows customers to get in touch with our team by filling out a simple form. They can enter their name, email address, and a message they'd like to send. Once submitted, the message is forwarded to our team, and we'll get back to the customer via email as soon as possible. This page is the ideal place for questions, feedback, or any general inquiries.

Shop Page: On the Shop page, customers can browse a collection of our most popular service dinosaurs. The page includes a keyword-based search feature and advanced filtering options, allowing users to narrow down the selection by traits such as type, function, or personality. For those who are unsure which dinosaur to choose, we also offer a fun and interactive quiz that provides personalized recommendations based on their preferences.

Quiz: The Quiz is a lighthearted and enjoyable feature designed to help users discover their ideal service dinosaur. It consists of 10 fun and easy-to-answer questions that explore the user's preferences and lifestyle. Once completed, the quiz provides a tailored dinosaur recommendation that best fits the user's answers, linking directly to the relevant product page for more information and purchase options.

Product Page: It provides detailed information about a specific service dinosaur, whether the customer selected it from the Shop page or was recommended through the Quiz. Here,

users can read an in-depth description of the dinosaur, explore its unique features, and view reviews from other customers who have purchased it. They can also select the quantity they wish to purchase and add the dinosaur to their cart directly from this page.

Review Page: It enables logged-in customers to leave feedback on a dinosaur they've previously purchased. Accessible from the Product page, this section verifies the user's purchase history before allowing them to submit a written review. Once submitted, the review is immediately published and becomes visible to other visitors.

Cart Page: Users can view all the dinosaurs they want to buy. They can adjust the quantity of a specific dinosaur and have the option to delete it from their cart. For each dinosaur, there is a subtotal indicating the price for the quantity of a specific dinosaur. There is a total amount and a total quantity indicating the combined price of all dinosaur quantities and the total number of dinosaurs you want to purchase. If the cart is empty, there is a suggestion to navigate to the Shop page to fill your cart with dinosaurs. If users want to finalize their order, they can go to the Checkout page or go to the Shop page to add more dinosaurs to their cart.

Checkout Page: Users can finalize their order by selecting their preferred payment method. By finalising your order, your cart will be cleared and your order is recorded in a table which can be viewed in the User Profile Page. If you want to add more dinosaurs to your cart, you can click on the button, 'Redirect Me!' and it will redirect you to the Shop page.

User Profile Page: The User Profile page provides a comprehensive overview of the customer's account and activity on the website. It displays the user's name and email address, along with a personalized wishlist featuring dinosaurs they've marked for future interest. The page also includes a full order history and review history. The order history includes the dinosaur names, order ID, the total quantity and the date when the order took place. The review history lists all reviews the user has submitted which includes the name of the dinosaur reviewed, the description of the review and the review ID. Additionally, users can update their account information directly from this page, including editing personal details and changing their password, ensuring they have full control over their profile and preferences.

Admin Flow

*The following is from the admin's (actor) point of view.

Admin Page: This page is exclusive to any admin users. They have access to a table of existing users. The table contains the user's ID, first name, last name, email address and the option to delete a user from the system. There is a confirmation box if the admin changes their mind and doesn't want to delete a specific user. When a user is deleted, all orders and reviews associated with the user are also deleted. Admins can also add new dinosaur items to the Shop page by filling in the 'Add a Dinosaur!' form. The required fields are the name of the new dinosaur, both a short and long description of the dinosaur, the price, image address of the dinosaur, the status which has to be either 'available' or 'unavailable' and tags.

Other Pages: Same as customer flow.
